Commitment to Pursue a DOE Security Clearance, if Necessary

I commit that I will timely and fully perform all activities necessary to apply for and further the processing and the obtainment of the required level of Department of Energy (DOE) security clearance as determined by Sandia Corporation (Sandia) and when determined appropriate by Sandia. I acknowledge that much of the work done at Sandia requires a DOE security clearance and that Sandia is hiring me with the expectation that I will maintain eligibility for processing of a security clearance even if a clearance is not immediately required upon hire so that in the event that management determines that a clearance is necessary pursuit of a clearance will be immediate.

I understand and agree that my failure to meet the commitments, to which I agree herein, will result in the termination of my employment with Sandia.

I understand that my employment with Sandia further depends upon satisfaction of all the conditions and qualifications stated in the offer letter and Employment Acceptance Form.

This form will be included with and maintained in the Staffing Personnel File.
