[SEGIS] Subject: Solicitation [10474] Question set [18] Questions [1] to [1]

Contractors have asked the following questions on the subject RFQ. The questions and answers will be distributed to all contractors currently in consideration for award of this contract.

Question 1
Set 18

The solicitation calls for the inclusion of a commercialization plan for the technology. As we understand it, this commercialization plan would be a part of the 30-page narrative limit, so it would be a brief summary of the plan rather than a fully developed, detailed plan. How comprehensive should this summary be? I.e., how far into the future should it look (through the end of the proposed project, 3 years, 5 years, etc.?) Should it include budgetary numbers or names of expected business partners?

Answer:

Yes, it should include budgetary numbers, names of expected business partners and it should project out at least five years.

Please feel free to contact me if you have any comments or questions.
