

Eastern Region Energy-Water Summary Overview for Group D

Problems

Needs

Solutions

ENERGY SUPPLY

Data on the potential contribution of alternatives
Incentives leading to sustainable development
Integrated Resource Planning (IRP)
Investment in new and innovative technologies
Tool to assist with demand and supply balance
Data to assess impact on water demands for alternative fuels

WATER SUPPLY

Data on supply and consumption
Public knowledge about water supply
Global food and water/energy trade-offs
Water infrastructure improvements
Brackish, impaired water re-use reduction
Policy for regional approach to water allocation

CROSS-CUTTING ISSUES

Value of water
Regulatory environment
Produced water
