

SPECIAL SPECIFICATION

SECTION 02930S

PLANTINGS

This section shall be replaced with section 1005 Plantings of the City of Albuquerque Standard Specifications for Public Works Construction, 1986 Edition, Technical Specifications, as updated and are incorporated by reference, the same as if fully written herein and shall govern this project except where revised, updated or supplemented by the Special Provisions and/or the Supplemental Technical Specifications.

Supplemental Technical Specifications

The following revisions and/or additions to this Specification Section are hereby made part of the contract documents

1005.4.3.2 Delete the first sentence and replace with the following:

Back fill for planting pits shall consist of clean existing soil. If existing soil is deemed unsuitable by the engineer, the contractor shall provide suitable backfill material and basic soil analysis info at no additional cost to the owner.

1005.9 Delete
