

Mathematical Challenge

**Sandia National Laboratories/New Mexico
invites
interested students in grades 7-12
to enter the
7th Annual Go Figure Mathematical Challenge**

**Saturday, 19 November 2005
9-12Noon**

Location:

West Mesa High School	6701 Fortuna Rd NW Albuquerque
Grants High School	500 Mountain Rd. NW Grants
Eisenhower Middle School	11001 Camero Ave NE Albuquerque

The Go Figure Mathematical Challenge is designed to identify students having the ability to *learn*, *retain*, and *apply* mathematical concepts. Those who do not give up easily on necessary work benefit the most from such a challenge.

A copy of the year 2004 Go Figure Mathematical Challenge is attached. Note special features, including:

- **attempting to define concepts clearly**
- **providing examples**
- **breaking up difficult problems into more manageable pieces**
- **accepting intelligent trials as a technique for solving problems**
