Site History

See site [88A](#) & [88B](#).

Constituents of Concern

88B: None

Current Hazards

A hole marking the location of a former utility pole, is located 50 feet west of the existing pole. The hole presents a driving and walking hazard and may not be readily visible due to vegetation growth.

Current Status of Work

N/A

Future Work Planned

None

Waste Volume Estimated/Generated

Three 55-gallon drums of nonhazardous waste were generated during the Site 88B debris mound sampling and removal.

Information for ER Site 88 was last updated Jul 9, 2001.
