Sandia

Budget

Sandia received $3.1 billion in revenue in FY16, Oct. 1, 2015, through Sept. 30, 2016. Most of that came through U.S. Department of Energy funding, including $1.9 billion under the DOE’s National Nuclear Security Administration. Weapons activities accounted for about $1.8 billion of the NNSA portion, defense nuclear nonproliferation received $167 million and other NNSA programs received $2 million. The DOE budget also included funding from the following program offices: $60 million from the Office of Science, $62 million from the Office of Energy Efficiency and Renewable Energy, $19 million from the Office of Energy and Threat, $14 million from the Office of Electricity Delivery and Energy Reliability, $16 million from the Office of Environmental Management, $21 million from the Office of Nuclear Energy Science and Technology, $8 million from the Office of Fossil Energy Conservation and $5 million for other DOE programs. Sandia also received $988 million in non-DOE funding under Strategic Partnership Projects.

FY16 total revenue by Program Management Unit $3.1B

- Nuclear Weapons, 61.6%
- Defense Systems & Assessments, 19.5%
- Energy & Climate, 7.6%
- International, Homeland, and Nuclear Security, 11.3%
Employees
In FY16, Sandia had a workforce of 12,206, including 10,652 regular employees, 354 limited-term employees, 738 students, 223 post-docs, 35 faculty, and 204 staff augmentation contractors. Seventeen percent of Sandia’s technical staff work in electrical engineering, 22 percent work in mechanical engineering, and 19 percent are in other engineering fields. Some 20 percent of the technical staff work in computing, 7 percent work in chemistry, 3 percent are in other science, 6 percent are in physics and 6 percent work in cybersecurity. The figures do not add up to 100 percent due to rounding.

Sandia’s regular employees have earned 936 associate degrees, 2,013 bachelor’s degrees, 4,031 master’s degrees, 1,857 doctorates, and 1,815 other degrees as of the end of FY16.

Sandia sites
Sandia operates in Albuquerque, N.M.; Livermore, Calif.; Tonopah Test Range, Nev.; and Kauai Test Facility, and Maui, Hawaii; and has leased space at other locations, including a Washington, D.C., office. Details:
- Albuquerque — 689 buildings and 13,740 acres
- California — 75 buildings and 410 acres
- Tonopah — 83 buildings and 179,200 acres
- Kauai and Maui — 56 buildings and 133 acres
- Leased facilities, all locations — 16 buildings and 19 acres
