## **Local Small Business Wins Sandia Contract to Provide Recycled Paper Products**

**Albuquerque, N. M.** – Sandia Service Company has been awarded a three-year, \$3 million contract to provide Sandia National Laboratories with recycled copier and writing paper.

According to Sandia Labs Contracting Representative Jeff Miller it was important to contract with a distributor of Willamette Industries paper products that match the laboratory's quality requirements. He said recycled copier paper comprises the majority of the contract with the remainder to include recycled office paper products, like writing paper and envelopes.

“The company's customer focus, its extensive warehousing capacity and its fine-tuned delivery system were the basis for this contract award,” said Miller.

A division of Sandia Paper Company, Sandia Service Co., is a local 8 (a) minority owned paper distributor. Current distribution includes New Mexico and parts of Colorado.

Sandia Service Co. President Jeannie Cao said, “Recycled office paper products make sense because they are less wasteful, reduce landfill needs, save production energy and save our customers some money.”
