controlled item, data, or services to foreign persons. Diversion contrary to U.S. export
laws and regulations is prohibited.

(b) Contractor shall immediately notify the SCR if Contractor is, or becomes, listed in any
Denied Parties List or if Contractor's export privileges are otherwise denied, suspended or
revoked in whole or in part by any U.S. Government entity or agency.

(c) If Contractor is engaged in the business of either exporting or manufacturing (whether

any of its obligations under this Contract.

(c) Contractor shall indemnify and hold harmless Sandia from and against any actual or

Contract, or

(ii) any claims made by Contractor's personnel against Sandia.

The Contractor shall flow down the requirements of this clause to any applicable
subcontracts for services.

INFORMATION SECURITY

Official Use Only (OUO) and Sandia Proprietary Information (SPI)

Contractor shall ensure Sandia information utilized in the performance of this contract is
not used or disseminated for any other purpose. Contractor shall protect OUO and SPI
information from unauthorized dissemination (e.g. to persons who do not require the
information to perform work under this contract) and shall follow all requirements for OUO
and SPI documents specified below.

Definition: OUO and SPI information are unclassified with the potential to damage government, commercial or private interests if disseminated to persons who do not have a need-to-know the information.

(a) Protection in Use: Precautions shall be taken by the contractor to prevent access to documents marked as containing OUO information by persons who do not require the information to perform their jobs or other DOE-authorized activities.

(b) Protection in Storage: Documents marked as containing OUO information shall be stored in a locked room or other locked receptacle (e.g., a locked file cabinet, desk).

(c) Reproduction: Documents marked as containing OUO information shall be reproduced to the minimum extent necessary in performance of the contract. All copies of Sandia OUO and SPI (including 3-D print prototypes) shall be protected, accessed, stored, marked, transmitted and destroyed in the same manner as the originals.

(d) Destruction: Disks shall be overwritten using approved software and destroyed. Hard copy OUO or SPI documentation shall be destroyed by using an approved shredder (strips no more than ¼ inch wide).

RECYCLED AND/OR NEW MATERIALS

Unless otherwise specified in this Purchase Order, all Items delivered shall consist of recycled and/or new materials. New is defined as previously unused which may include residual inventory or unused former Government surplus property. Seller shall give preference to the use of recycled materials in support of Sandia’s Sustainable Acquisition Program as set forth in DEAR 970.5223-7 SUSTAINABLE ACQUISITION PROGRAM

RISK OF LOSS

If Sandia is responsible for the risk of loss during transportation of compliant Items, Sandia shall compensate Seller the lesser of (1) the agreed price of such Items, or (2) the Seller's cost of replacing such Items; and such loss shall entitle the Seller to an equitable adjustment in delivery schedule obligations.

SUSPECT/COUNTERFEIT ITEMS (S/CI)

Suspect/counterfeit items or services are a serious concern to Sandia because they present a potential threat to personal safety, equipment and system reliability and/or compliance with regulatory environmental standards. Failure of a safety or mission critical system due to an S/CI could also have security implications at DOE facilities.

Notwithstanding other warranty provisions of this Contract, Contractor expressly warrants that all items provided under this Contract are suitable for the intended or specified use and that no suspect or counterfeit items, component parts or materials have been furnished or delivered to Sandia under this Contract. Unless otherwise specified in this contract the contractor shall purchase directly from product manufacturers or authorized manufacturer distributors.

Contractor's warranty also extends to labels and/or trademarks or logos affixed, or designed to be affixed, to items supplied or delivered to the Sandia. In the event that a suspect or counterfeit item, as defined herein, is identified and/or delivered to Sandia, Contractor agrees to comply with all requirements stated in this Clause.
Definitions

Suspect Item: A suspect item is an item of which there is an indication by visual inspection, testing, or other verifiable information, that the item may not conform to established U.S. Government or industry-accepted specifications and national consensus standards.

Counterfeit Item: A counterfeit item is one that has been copied or substituted without legal right or authority or whose material, performance, or characteristics have been misrepresented by the vendor, supplier, distributor, or manufacturer.

Contractor shall only provide items and services that meet or exceed all requirements specified in this Contract including verifiable compliance with all applicable quality, safety and manufacturing standards including all U.S. Government or industry-accepted specifications and national consensus standards. Examples of such standards include, but are not limited to: Underwriter’s Laboratory (UL) Listing, National Fire Protection Association (NFPA), Standard of Mechanical Engineers (ASME), Institute of Electrical and Electronics Engineers (IEEE), Occupational Safety and Health Act (OSHA), American Society for Testing Material (ASTM), Nationally Recognized Testing Laboratory (NRTL), etc.

Additional detailed information is available at the Department of Energy (DOE) Training Manual on Suspect/Counterfeit Awareness

Contractor shall have a quality assurance program that detects and prevents suspect/counterfeit items from being furnished or used in the performance of work under this Contract. If requested by Sandia, Contractor shall furnish a certificate of compliance with delivery stating that all items fully comply with all requirements of this Contract. The Contractor may choose to identify to Sandia National Laboratories certifications held to applicable standards such as ISO/IEC 20243, Mitigating Maliciously Tainted and Counterfeit products or other similar standards, to satisfy this contract requirement. This can be completed by sending the certification to the Suspect/Counterfeit Items Program Coordinator at sqascl@sandia.gov

In the event that the Contractor identifies or suspects that a suspect/counterfeit item may have been delivered under this Contract, Contractor shall immediately notify the Sandia Contracting Representative. Contractor shall document and provide all available information regarding any item or service furnished under this Contract that is suspected to be a suspect/counterfeit item, component, subcomponent part or material. Sandia shall impound the item(s). The Contractor may be required to replace such item(s) with item(s) acceptable to Sandia and shall be liable for all costs relating to the impoundment, removal, and replacement of the item(s). Contractor shall indemnify Sandia, its agents, and third parties for any financial loss, injury, or property damage resulting directly or indirectly from material, components, or parts that are not genuine, original, and unused, or not otherwise suitable for the intended purpose. This includes, but is not limited to, materials that are defective, suspect, or counterfeit; materials that have been provided
under false pretenses; and materials or items that are materially altered, damaged, deteriorated, degraded, or result in product failure.

Detection of any or suspect/counterfeit item(s) leading to evidence of deliberate misrepresentation of any supplied item(s), including components, subcomponent parts or materials used in the item(s), may result in an investigation into the validity of certification, fraud, and/or forgery. Because falsification of information or documentation may constitute criminal conduct; Sandia will notify cognizant Department of Energy officials and the Office of the Inspector General.

Note: If this Contract provides for the use of credit cards, their use in no way relieves the Contractor from complying with all requirements of this Clause.

For questions or to report suspect or counterfeit items or materials email the Sandia National Laboratories Suspect/Counterfeit Items Program Coordinator at sqasci@sandia.gov.

**PROTECTION OF PERSONALLY IDENTIFIABLE INFORMATION (PII)**

In performing this contract the Contractor may be provided with Personally Identifiable Information (PII) relating to Sandia employees, contractor employees, and any other individuals related to the work under this contract. PII does not include information that is on Sandia computing resources as a result of incidental personal use of computing and information resources or other assets. Loss of Control of PII: If the Contractor becomes aware or suspects that any Sandia provided Personally identifiable Information, has been inappropriately, taken, used, disclosed, and/or released or that the controls for access to the information have been compromised, the Contractor will immediately take steps to prohibit further disclosure and will give verbal notice to Sandia’s Security Incident Management Program (SIMP) by calling and reporting the incident at either at (505) 283-7467 or for contracts issued in
California call 1-925-294-3238 (these are manned 7 days a week 24 hours a day). After notifying SIMP, also verbally notify the SCR and SDR (if one is identified in this contract). In addition to the immediate verbal notifications, written notification will be provided to the SCR and SDR (if one is identified in the contract) within 72 hours of the Contractor’s learning of the situation. The Contractor will cooperate with Sandia and provide information needed to allow Sandia to evaluate the nature and extent of the release or loss of control.

The provisions of this clause shall survive and continue in force following the completion of work under this agreement until such time that any provided PII is either destroyed in its entirety in a manner that ensures it is not readable or decipherable through any means, or that the information including all copies is returned to Sandia.
