“Sandia National Laboratories has a long and distinguished history of partnering with highly qualified, diverse small business suppliers who help us achieve our national security missions. We are committed to continuing this track record and building relationships with the small business community that spur economic growth in New Mexico and across the country.”

— Dr. Stephen Younger
Laboratories Director

Sandia’s primary mission is ensuring the U.S. nuclear arsenal is safe, secure, and reliable, and can fully support our nation’s deterrence policy.

We protect the United States from threats at home and abroad by developing the technical expertise to monitor and assess emerging dangers, guard materials and critical assets, and respond to crises.
Sandia develops advanced technologies to ensure global peace.

NATIONAL SECURITY PROGRAMS

Sandia provides systems, science, and technology to meet national security objectives in such areas as cybersecurity, science and technology products, and integrated military systems.

ENERGY & HOMELAND SECURITY

We support the resilience and security of the nation’s energy system, protect digital and physical critical infrastructure, and reduce U.S. vulnerability to chemical, biological, radiological, and nuclear terrorism.

ADVANCED SCIENCE & TECHNOLOGY

Sandia provides the science needed to enable the U.S. nuclear stockpile, and does fundamental scientific, biomedical, and environmental research to enhance national security, economic competitiveness, and improved quality of life.
2017 Economic Impact

“Sandia’s success is closely connected to the diversity and strength of our suppliers. We are fully committed to nurturing our small business partnerships to achieve our national security mission and furthering economic prosperity.”

Jolyn A. Maheras
Director, Integrated Supply Chain Management

Subcontract-Related Payments
This represents dollars paid to purchase goods and services. More than 510 new small business suppliers supported Sandia’s mission in Fiscal Year 2017 (FY17). Small businesses represent 66 percent of all Sandia suppliers.

Gross Receipts Taxes
Sandia paid $83,675,000 to the State of New Mexico in gross receipts tax.

*non-minority, non-woman, non-HUBZone, non-veteran owned

Hands-On Minds-On Technologies, Manos, and Dream Catchers

**TECHNOLOGY AND ECONOMIC DEVELOPMENT**

New Mexico Small Business Assistance (NMSBA) provides small businesses in New Mexico with access to laboratory experts at Sandia to help them solve technical challenges. Last year, Sandia invested $2.4 million helping 198 small businesses in 19 counties throughout New Mexico. There were 75 Sandia principal investigators across 59 departments who supported NMSBA.

Entrepreneurial Separation to Transfer Technology (ESTT) allows scientists to leave the Labs to launch technology companies or expand existing ones, and guarantees reinstatement if they choose to return to Sandia within two years. In 2017, five Sandians left on ESTT to start or expand a small business. Currently, there are nine Sandians actively out on ESTT.

Sandia Science & Technology Park (SS&TP) is a 340-acre technology community adjacent to Sandia and Kirtland Air Force Base where startups and mature companies can collaborate with the Labs on a wide variety of technologies, products, and services. In 2017, six companies and organizations moved into the SS&TP.

Entrepreneur Exploration (EEx) is aimed at Sandia principal investigators interested in learning about the exciting opportunities and resources available to entrepreneurs. EEx is intended to invigorate the entrepreneurial culture at the Labs and inspire entrepreneurs to either go into the business world or develop an entrepreneurial mindset while remaining at the Labs. In 2017, EEx held 20 events with a total of 926 participants.
In 2017, Sandia continued to deploy laboratory developed technologies by partnering with U.S. companies to support local and national economic growth. For more information and to explore Sandia's available technologies, visit Sandia's licensing and technology transfer website at ip.sandia.gov.

BECOME A SANDIA SUPPLIER:

Do your research

Is Sandia your market? Know who we are, what we buy, and how we buy.

Sell your capabilities

How can you help Sandia meet its requirements? Identify how you are unique in areas such as innovation, technical expertise, safety, business acumen, financial strength, quality systems, and prior experience.

Supply best value

Demonstrate sustained high performance in cost, quality, safety, and on-time delivery for products and services. Ensure customer focus and satisfaction, and continue to improve.

Make contact

Forge relationships, build trust, stay engaged, and be patient.

Prevent and detect

Keep suspect/counterfeit and fraudulent items from entering Sandia’s supply chain.
