AWARD BASIS (Applicable only to the Request for Quotation). Unless otherwise specified in Section I of the RFQ, award will be on the basis of low net cost to Sandia. Low net cost includes price, transportation charges, and payment discount terms.

The terms and conditions stated for this Purchase Order, referred herein as "contract," are the only ones governing this transaction and cannot be changed or terminated orally. No terms and conditions appearing on any form originated by the Contractor shall be applicable.

* Flow Down Provision Indicated - Inclusion of these clauses, suitably modified to identify parties, is required in subcontracts at any tier.

"A" CLAUSES APPLY AT ANY VALUE

CLAUSE A10 - DEFINITIONS

As used throughout this contract, the following terms shall have the meanings set forth below:

(a) SANDIA

Sandia Corporation, a prime contractor of the United States Department of Energy, which operates Sandia National Laboratories under Contract No. DE-AC04-94AL85000 as amended.

(b) SCR - SANDIA CONTRACTING REPRESENTATIVE

The only person authorized to execute and/or administer this contract on behalf of Sandia or the authorized successor to such person. Where the FAR clauses are referenced substitute SCR for Contracting Officer.

(c) GOVERNMENT

The United States of America.

(d) DOE

The United States Department of Energy, the Secretary of Energy, or any duly authorized representative of the Secretary.

(e) CONTRACTOR

The Seller or the other party to the contract with Sandia.

(f) SUBCONTRACTS

Except as otherwise provided in this contract, the term "subcontracts" includes purchase orders under this contract.

(g) SDR - Sandia Delegated Representative

The person(s) who has been delegated limited authority as defined in Section I of this contract. THE SDR’S AUTHORITY IS LIMITED SOLELY TO THE AUTHORITY ENUMERATED IN SECTION I OF THIS CONTRACT. THE SDR HAS NO AUTHORITY TO CHANGE ANY TERM OR CONDITION CONTAINED IN THIS CONTRACT.

(h) FAR - The Federal Acquisition Regulation

(i) DEAR - The Department of Energy Acquisition Regulation

CLAUSE A12 - ASSIGNMENT

This contract is assignable by Sandia to the Government or its designee. Any assignment by the Contractor of the work to be performed, in whole or in part, or of any other interest hereunder without Sandia’s written consent, except an assignment confined solely to moneys due or to become due, shall be void. It is expressly agreed that any such assignment of moneys shall be void to the extent that it attempts to impose upon Sandia obligations to the assignee additional to the payment of such moneys, or to preclude Sandia from dealing solely and directly with the Contractor in all matters pertaining hereto, including the negotiation of amendments or settlements of amounts due.

CLAUSE A15 - DELIVERY OF EXCESS QUANTITIES OF $250 OR LESS

The Contractor is responsible for the delivery of each item within allowable variations, if any. If the Contractor delivers and Sandia receives quantities of any item in excess of the quantity called for (after considering any allowable variation in quantity), such excess quantities will be treated as being delivered for the convenience of the Contractor. Sandia may retain such excess quantities up to $250 in value without compensating the Contractor therefor, and the Contractor waives all right, title, or interests therein. Quantities in excess of $250 will, at the option of Sandia, either be returned at the Contractor’s expense or retained and paid for by Sandia at the contract unit price.

CLAUSE A18 - DEFENSE PRIORITY AND ALLOCATION SYSTEM

(This Clause applies only if the Signature Page designates a Government Priority.)

(a) The Contractor shall follow the rules, regulations and procedures of Defense Priorities and Allocation System Regulation and all other applicable regulations and orders of the Office of the Industrial Resource Administration, Department of Commerce, in obtaining controlled materials and other products and materials needed to perform this contract.

(b) DX-rated contracts take precedence over all nonrated and DO-rated contracts. Between DX-rated contracts, precedence must be given in the sequence of receipt, then earliest required delivery date. Contractor’s responsibilities, briefly summarized, are:

1. Written notification of acceptance or rejection of rated contracts must be made within five working days after receipt of DX-rated contracts and ten days for DO-rated contracts. The notice of rejection shall clearly set forth the reasons.

2. If acceptance of a DX-rated contract will prevent Contractor from fulfilling a DO-rated contract on time, Contractor must so notify the party which placed the DO-rated contract within five working days after acceptance of the DX-rated contract.

3. Contractor’s purchase orders or subcontracts over $5,000 under a DX-rated contract shall contain the DX rating and a statement that reads in substance: "This is a rated order certified for national defense use, and you are required to follow all the provisions of the Defense Priorities and Allocations System Regulations (15 CFR Part 700)."

Copies of the Regulations may be obtained from the nearest office of the U. S. Department of Commerce.

CLAUSE A23 - APPLICABLE LAW

The rights and obligations of the parties hereto shall be governed by, and this contract shall be interpreted in accordance with, federal law.

CLAUSE A24 - CONTRACTOR RECORDS RETENTION

Definition: Records include all books, paper, maps, photographs, machine readable materials, or other documentary materials, regardless of physical form or characteristics, made or received by an agency of the United States Government under Federal law or in connection with the transaction of public business and preserved or appropriate for preservation by that agency or its legitimate successor as evidence of the organization, functions, policies, decisions, procedures, operations or
other activities of the Government or because of the informational value of the data in them (44 USC 3301).

(a) Except as provided in (b) below, all records created in the performance of the contract shall be property of the Government, shall be retained in accordance with the General Records Schedules, DOE 1324.2A, and Records Management, DOE 1324.5A and shall be delivered to Sandia anytime as directed by Sandia.

(b) Financial and cost accounting, pay administration, and acquisitions and supply records as defined in 48 CFR 4.7 and other records incidental to the statement of work such as management information shall not be delivered to Sandia unless otherwise requested.

CLAUSE A25 - COMMERCE IN EXPLOSIVES, FIREARMS AND AMMUNITION - EXEMPTION

Commerce in Explosives, 27 CFR Subpart H, Section 55.141, exempts establishments owned by, or operated by or in behalf of, the United States. 18 USC Section 925 (a)(1) provides the exemption for commerce in firearms and ammunition.

CLAUSE A26 - OFFICIALS NOT TO BENEFIT

No member of or delegate to Congress, or resident commissioner, shall be admitted to any share or part of this contract, or to any benefit arising from it. However, this clause does not apply to this contract to the extent that this contract is made with a corporation for the corporation's general benefit.

CLAUSE A30 - PAYMENTS

(a) The Contractor shall be paid, upon the submission of proper invoices or vouchers, the prices stipulated herein for supplies delivered and accepted or services rendered and accepted, less deductions, if any, as herein provided.

(b) Invoices or vouchers requesting payment for item(s) of Government Property as defined in Clause A60, Property, shall be separately listed on such invoices or vouchers.

(c) For the purpose of computing discounts and other terms of payment, time will be computed from the date of receipt by Sandia or Contractor's invoices or vouchers, or the date of delivery of the supplies or services, whichever is later. Payment is deemed to be made for the purpose of earning the discount on the date of mailing of Sandia's check(s).

(d) Sandia may take contract or invoice prompt payment discount.

CLAUSE A31 - TAXES

(a) Except as may be otherwise provided in this contract, the price includes all applicable Federal, State, and Local taxes and duties.

(b) Notwithstanding the provisions of (a) above, if the Contractor intends to collect from Sandia under this contract any amount attributable to taxes imposed by the New Mexico Gross Receipts and Compensating Tax Act or New Mexico Municipal Gross Receipts and Compensating Tax Act, such amount shall be separately stated in the price provisions of this contract and in the Contractor's invoices or vouchers. The Contractor warrants that, except as separately stated in the price provision in accordance with this paragraph (b), the price does not include any amounts attributable to taxes imposed by the New Mexico Gross Receipts and Compensating Tax Act or New Mexico Municipal Gross Receipts and Compensating Tax Act or contingencies for such taxes.

(c) With respect to any taxes separately stated in the price provisions of this contract and on Contractor's invoices or vouchers in accordance with paragraph (b), Sandia agrees either (1) to furnish to the Contractor a Nontaxable Transaction Certificate for purchase of tangible personal property, or (2) to pay to the Contractor any portion of such separately stated amount that the Contractor is required to pay to the New Mexico Bureau of Revenue because of Sandia's inability to furnish such certificate.

(d) Sandia holds California Seller's Permit Number OH-98033576. Purchases made under this contract are exempt from California Sales and Use Taxes.

CLAUSE A36 - EXCESS FREIGHT CHARGES

When Sandia pays any amounts for freight charges in connection with this contract, Contractor is responsible for and shall pay to Sandia the amount of any excess freight charges if the routing specified in writing by the SCR is not used. If the specified routing cannot be used, Contractor shall promptly notify the SCR before shipment, and obtain new routing directions from the SCR.

CLAUSE A39 - NOTICE OF POTENTIAL DELAY

CONTRACTOR shall strictly comply with the delivery requirements of this Contract. Whenever the CONTRACTOR has knowledge that any actual or potential delay or threatened delay in the timely performance of this Contract, the CONTRACTOR shall immediately give notice thereof, confirmed in writing, including all relevant information with respect thereto, to Sandia. The CONTRACTOR agrees to insert the substance of this provision, including this sentence, in any subcontract hereunder, except that each such subcontract shall require the subcontractor to notify his next higher tier contractor of all relevant information with respect to such delays. Such notice is for informational purposes only and shall not be construed to relieve the CONTRACTOR of CONTRACTOR's obligation to comply with the Contract delivery requirements.

CLAUSE A40 - INSPECTION AND CORRECTION OF DEFECTS

(a) Applies to Supplies

(1) All supplies (which term throughout this Clause includes without limitation raw materials, components, intermediate assemblies, and end products) shall be subject to inspection and test by Sandia and DOE to the extent practicable at all times and places including the period of manufacture, and in any event prior to acceptance.

(2) In case any supplies or lots of supplies are defective in material or workmanship or otherwise not in conformity with the requirements of this contract, Sandia shall have the right either to reject them (with or without instructions as to their disposition) or to require their correction. Supplies or lots of supplies which have been rejected or required to be corrected shall be removed or, if permitted or required by the SCR, corrected in place by and at the expense of the Contractor promptly.
after notice, and shall not thereafter be tendered for acceptance unless the former rejection or requirement of correction is disclosed. If the Contractor fails promptly to remove such supplies or lots of supplies which are required to be removed, or promptly to replace or correct such supplies or lots of supplies, Sandia either (i) may by contract or otherwise replace or correct such supplies and charge to the Contractor the costs occasioned Sandia thereby, or (ii) may terminate this contract for default as provided in the clause of this contract entitled "Termination for Default." Unless the Contractor corrects or replaces such supplies within the delivery schedule, the SCR may require the delivery of such supplies at a reduction in price which is equitable under the circumstances.

(3) If Sandia or DOE inspection or test is made at a point other than the premises of the Contractor or a subcontractor, it shall be at the expense of Sandia except as otherwise provided in this contract; provided, that in case of rejection, Sandia shall not be liable for any reduction in value of samples used in connection with such inspection or test.

(4) Sandia reserves the right to charge to the Contractor any additional cost of Sandia inspection and test when supplies are not ready at the time such inspection and test is requested by the Contractor or when reinspection or retest is necessitated by prior rejection. Acceptance or rejection of the supplies shall be made as promptly as practicable after delivery, except as otherwise provided in this contract; but failure to inspect or accept or reject supplies shall neither relieve the Contractor from responsibility for such supplies as are not in accordance with the contract requirements nor impose liability on Sandia therefor.

(5) The inspection and test by Sandia or DOE of any supplies or lots thereof does not relieve the Contractor from any responsibility regarding defects or other failures to meet the contract requirements which may be discovered prior to acceptance. Except as otherwise provided in this contract, acceptance shall be conclusive except as regards latent defects, fraud, or such gross mistakes as amount to fraud.

(b) Applies to Services

(1) All services performed by the Contractor under this contract shall be subject to inspection and test by Sandia and DOE to the extent practicable at all times (including the period of performance) and places, and in any event prior to acceptance. Sandia and DOE through any authorized representative, may inspect the plant or plants of the Contractor or of any of its subcontractors engaged in the performance of this contract. Except as otherwise provided in this contract, acceptance of services performed under this contract shall be made at the place of performance as promptly as practicable after performance and shall be deemed to have been made no later than 60 days after the date of such performance, if acceptance has not been made earlier within such period.

(2) At any time during performance of this contract, but not later than six months (or such other period as may be provided in Section I) after acceptance of the services in accordance with the requirements of this contract, Sandia may require the Contractor to remedy by correction, as directed by the SCR, any services which at the time of performance thereof failed to comply with the requirements of this contract. Corrected services shall not be tendered again for acceptance unless the former tender and the requirement of correction is disclosed. If the Contractor fails to proceed with reasonable promptness to perform such correction and if such correction may be performed within the contract price, or the contract price as increased by Sandia, Sandia may by contract or otherwise perform such correction and charge to the Contractor any increased cost occasioned Sandia or the Government thereby, and may deduct such increased cost from any amounts due the Contractor under this contract (or require repayment of any payments theretofore made), or (ii) may terminate this contract as provided in the "Termination for Default" clause of this contract.

(c) Applies to Supplies and Services

(1) Notwithstanding the provisions of paragraph (b)(2) above, Sandia may at any time require the Contractor to remedy by correction or replacement, without cost to Sandia, any failure by the Contractor to comply with the requirements of this contract, if such failure is due to fraud, lack of good faith or willful misconduct on the part of any of the Contractor's directors or officers, or on the part of any of the Contractor's managers, superintendents, or other equivalent representatives, who have supervision or direction of (i) all or substantially all of the Contractor's business; (ii) all or substantially all of the Contractor's operations at any one plant or separate location in which this contract is being performed; (iii) a separate and complete major industrial operation in connection with the performance of this contract; or (iv) all or substantially all of the Contractor's operations under this contract. Sandia may at any time also require the Contractor to remedy by correction or replacement, without cost to Sandia or the Government, any such failure caused by one or more individual employees selected or retained by the Contractor after any such supervisory person has reasonable grounds to believe that such employee is habitually careless or otherwise unqualified.

(2) The provisions of this clause shall apply to any corrected or replacement services or materials.
The SCR may at any time, by written order, and without notice to the sureties, if any, make changes within the general scope of this contract in any one or more of the following:

(a) Description of services to be performed.

(b) Time of performance (i.e., hours of the day, days of the week, etc.).

(c) Place of performance of the services.

(d) Drawings, designs, or specifications. When the supplies to be furnished are to be specially manufactured for Sandia in accordance with the drawings, designs, or specifications.

(e) Method of shipment or packing of supplies.

(f) Place of delivery.

(b) If any such change causes an increase or decrease in the cost of, or the time required for, performance of any part of the work under this contract, whether or not changed by the order, the SCR shall make an equitable adjustment in the contract price, the delivery schedule, or both, and shall modify the contract.

(c) The Contractor must assert its right to an adjustment under this clause within 30 days from the date of receipt of the written order. However, if the SCR decides that the facts justify it, the SCR may receive and act upon a proposal submitted before final payment of the contract.

(d) If the Contractor's proposal includes the cost of property made obsolete or excess by the change, the SCR shall have the right to prescribe the manner of the disposition of the property.

Nothing in this clause shall excuse the Contractor from proceeding with the contract as changed.

No proposal by the Contractor for an equitable adjustment shall be allowed if asserted after final payment under this contract.

CLAUSE A45 - TERMINATION FOR DEFAULT

(a) Termination for Default

(1) Sandia may, subject to paragraphs (c) and (d) below by written notice of default to the Contractor, terminate this contract in whole or in part if the Contractor fails to:

(i) Deliver the supplies or to perform the services within the time specified in this contract or any extension thereof.

(ii) Make progress, so as to avoid endangering performance of this contract (but see subparagraph (a)(2) below; or

(iii) Perform any of the other provisions of this contract (but see subparagraph (a)(2) below).

(2) Sandia's right to terminate this contract under subdivisions (1)(ii) and (1)(iii) above, may be exercised if the Contractor does not cure such failure within 10 days (or more if authorized in writing by the SCR) after receipt of the notice from the SCR specifying the failure.

If Sandia terminates this contract in whole or in part, it may acquire, under the terms and in the manner the SCR considers appropriate, supplies or services similar to those terminated, and the Contractor will be liable to Sandia for any excess costs for those supplies or services. However, the Contractor shall continue the work not terminated.

Except for defaults of subcontractors at any tier, the Contractor shall not be liable for any excess costs if the failure to perform the contract arises from causes beyond the control and without the fault or negligence of Contractor. Examples of such causes include (1) acts of God or of the public enemy, (2) acts of the Government in either its sovereign or contractual capacity, (3) acts of Sandia, (4) fires, (5) floods, (6) epidemics, (7) strikes, (8) freight embargoes, and (10) unusually severe weather. In each instance, the failure to perform must be beyond the control and without the fault or negligence of the Contractor.

5
(d) If the failure to perform is caused by the default of a subcontractor of any tier, and if the cause of the default is beyond the control of both the Contractor and subcontractor, and without the fault or negligence of either, the Contractor shall not be liable for any excess costs for failure to perform, unless the subcontracted supplies or services were obtainable from other sources in sufficient time for the Contractor to meet the required delivery schedule.

(e) If this contract is terminated for default, Sandia may require the Contractor to transfer title and deliver to Sandia, as directed by the SCR, (1) completed supplies, and (2) partially completed supplies and materials, parts, tools, dies, jigs, fixtures, plans, drawings, information, and contract rights (collectively referred to as "manufacturing materials" in this clause) that the Contractor has specifically produced or acquired for the terminated portion of this contract. Upon direction of the SCR, the Contractor shall also protect and preserve property in its possession in which Sandia or the Government has an interest.

(f) Sandia shall pay contract price for completed supplies, delivered and accepted. The Contractor and SCR shall agree on the amount of payment for manufacturing materials delivered and accepted and for the protection and preservation of the property. Sandia may withhold from these amounts any sum the SCR determines to be necessary to protect Sandia against loss because of outstanding liens or claims of former lien holders.

(g) If, after termination, it is determined that the Contractor was not in default, or that the default was excusable, the rights and obligations of the parties shall be the same as if the termination had been issued under the "Termination for Convenience" clause of this contract.

(h) The rights and remedies of Sandia or the Government in this clause are in addition to any other rights and remedies provided by law or under this contract.

CLAUSE A46 - TERMINATION FOR CONVENIENCE

(a) Sandia may terminate performance of work under this contract in whole or, from time to time, in part if the SCR determines that a termination is in Sandia's or the Government's interest. The SCR shall terminate by delivering to the Contractor a Notice of Termination specifying the extent of termination and the effective date.

(b) After receipt of a Notice of Termination, and except as directed by the SCR, the Contractor shall immediately proceed with the following obligations, regardless of any delay in determining or adjusting any amounts due under this clause:

(1) Stop work as specified in the notice.

(2) Place no further subcontracts or orders (referred to as subcontracts in this clause) for materials, services, or facilities, except as necessary to complete the continued portion of the contract.

(3) Terminate all subcontracts to the extent they relate to the work terminated.

(4) Assign to Sandia, as directed by the SCR, all right, title, and interest of the Contractor under the subcontracts terminated, in which case Sandia shall have the right to settle or to pay any termination settlement proposal(s) arising out of those terminations.

With approval or ratification to the extent required by the SCR, settle all outstanding liabilities and termination settlement proposals arising from the termination of subcontracts; the approval or ratification will be final for purposes of this clause.

As directed by the SCR, transfer title to the Government and deliver to Sandia (i) the fabricated or unfabricated parts, work in process, completed work, supplies, and other material produced or acquired for the work terminated, and (ii) the completed or partially completed plans, drawings, information, and other property that, if the contract had been completed, would be required to be furnished to Sandia.

Complete performance of the work not terminated.

Take any action that may be necessary, or that the SCR may direct, for the protection and preservation of the property related to this contract that is in the possession of the Contractor and in which Sandia or the Government has or may acquire an interest.

Use its best efforts to sell, as directed or authorized by the SCR, any property of the types referred to in subparagraph (6) above; provided, however, that the Contractor (i) is not required to extend credit to any purchaser and (ii) may acquire the property under the conditions prescribed by, and at prices approved by, the SCR. The proceeds of any transfer or disposition will be applied to reduce any payments to be made by Sandia under this contract, credited to the price or cost of the work, or paid in any other manner directed by the SCR.

After expiration of the plant clearance period as defined in FAR Subpart 45.6, the Contractor may submit to the SCR a list, certified as to quantity and quality, of termination inventory not previously disposed of, excluding items authorized for disposition by the SCR. The Contractor may request Sandia to remove those items or enter into an agreement for their storage. Within 15 days, Sandia will accept title to those items and remove them or enter into a storage agreement. The SCR may verify the list upon removal of the items, or if stored, within 45 days from submission of the list, and shall correct the list, as necessary, before final settlement.

After termination, the Contractor shall submit a final termination settlement proposal to the SCR in the form and with the certification prescribed by the SCR. The Contractor shall submit the proposal promptly, but no later than 1 year from the effective date of termination, unless extended in writing by the SCR upon written request of the Contractor within this 1-year period. However, if the SCR determines that the facts justify it, a termination settlement proposal may be received and acted on after 1 year or any extension. If the Contractor fails to submit the proposal within the time allowed, the SCR may determine, on the
basis of information available, the amount, if any, due the Contractor because of the termination and shall pay the amount determined.

(e) Subject to paragraph (d) above, the Contractor and the SCR may agree upon the whole or any part of the amount to be paid because of the termination. The amount may include a reasonable allowance for profit on work done. However, the agreed amount, whether under this paragraph (e) or paragraph (f) below, exclusive of costs shown in subparagraph (f)(3) below, shall not exceed the total contract price as reduced by (1) the amount of payments previously made and (2) the contract price of work not terminated. The contract shall be amended, and the Contractor paid the agreed amount. Paragraph (f) below shall not limit, restrict, or affect the amount that may be agreed upon to be paid under this paragraph.

(f) If the Contractor and the SCR fail to agree on the whole amount to be paid the Contractor because of the termination of work, the SCR shall pay the Contractor the amounts determined as follows, but without duplication of any amounts agreed upon under paragraph (e) above:

(1) The contract price for completed supplies or services accepted by Sandia (or sold or acquired under subparagraph (b)(9) above) not previously paid for, adjusted for any saving of freight and other charges.

(2) The total of:

(i) The costs incurred in the performance of the work terminated, including initial costs and preparatory expense allocable thereto, but excluding any costs attributable to supplies or services paid or to be paid under subparagraph (f)(1) above;

(ii) The cost of settling and paying termination settlement proposals under terminated subcontracts that are properly chargeable to the terminated portion of the contract, if not included in subdivision (i) above; and

(iii) A sum, as profit on subdivision (i) above, determined by the SCR under FAR Subpart 49.202, in effect on the date of this contract, to be fair and reasonable; however, if it appears that the Contractor would have sustained a loss on the entire contract had it been completed, the SCR shall allow no profit under this subdivision (iii) and shall reduce the settlement to reflect the indicated rate of loss.

(3) The reasonable costs of settlement of the work terminated, including:

(i) Accounting, legal, clerical, and other expenses reasonably necessary for the preparation of termination settlement proposals and supporting data;

(ii) The termination and settlement of subcontracts (excluding the amounts of such settlements); and

(iii) Storage, transportation, and other costs incurred, reasonably necessary for the preservation, protection, or disposition of the terminated inventory.

(g) Except for normal spoilage, and except to the extent that Sandia expressly assumed the risk of loss, the SCR shall exclude from the amounts payable to the Contractor under paragraph (f) above, the fair value, as determined by the SCR, of property that is destroyed, lost, stolen, or damaged so as to become undeliverable to Sandia or to a buyer.

(h) The cost principles and procedures of the FAR Part 31 as modified by DEAR Part 931, in effect on the date of this contract, shall govern all costs claimed, agreed to, or determined under this clause.

(i) In arriving at the amount due the Contractor under this clause, there shall be deducted:

(1) All unliquidated advance or other payments to the Contractor under the terminated portion of this contract;

(2) Any claim which Sandia or the Government has against the Contractor under this contract; and

(3) The agreed price, for, or the proceeds of sale of, materials, supplies, or other things acquired by the Contractor or sold under the provisions of this clause and not recovered by or credited to Sandia.

(j) If the termination is partial, the Contractor may file a proposal with the SCR for an equitable adjustment of the price(s) of the continued portion of the contract. The SCR shall make any equitable adjustment agreed upon. Any proposal by the Contractor for an equitable adjustment under this clause shall be requested within 90 days from the effective date of termination unless extended in writing by the SCR.

(k) (1) Sandia may, under the terms and conditions it prescribes, make partial payments and payments against costs incurred by the Contractor for the terminated portion of the contract, if the SCR believes the total of these payments will not exceed the amount to which the Contractor will be entitled.

(2) If the total payments exceed the amount finally determined to be due, the Contractor shall repay the excess to Sandia upon demand, together with interest computed at the rate established by the Secretary of the Treasury under 50 U.S.C. App. 1215(b)(2). Interest shall be computed for the period from the date the excess payment is received by the Contractor to the date the excess is repaid. Interest shall not be charged on any excess payment due to a reduction in the Contractor’s termination settlement proposal because of retention or other disposition of termination inventory.
The Contractor shall, if required, assume at its own expense the defense of suits that may be instituted against Sandia or the Government on account of Contractor's failures to conform to the laws, rules and regulations set forth in Paragraph 1, herein, the Contractor shall make no claim for an extension of time or for compensation or damages by reason of or in connection with such work stoppage.

In the event that the Contractor fails to comply with any law, rule or regulation described in Paragraph 1 herein, the SCR may, without prejudice to any other legal or contractual rights of Sandia, issue an order stopping all or any part of the work under the contract; thereafter a start work order for resumption of work may be issued at the discretion of the SCR. The Contractor shall make no claim for an extension of time or for compensation or damages by reason of or in connection with such work stoppage.

The Contractor shall comply with all applicable laws, rules and regulations set forth in Paragraph 1, herein, the Contractor shall assume full responsibility for and agrees to indemnify and save Sandia and the Government harmless from all losses, liability expenses, including attorneys' fees, on account of such violation.

The Contractor certifies, by executing a signed acceptance of this contract, that all its employees to be provided for Hazardous Materials (HAZMAT) work are physically fit to perform the required duties as a HAZMAT volunteer. Additionally, the Contractor has provided appropriate training for its employees to participate as a HAZMAT volunteer.

If the Contractor will perform work on Sandia-controlled premises, or deliver material or product, the Contractor shall comply with the following:

(a) Delivery of Hazardous Product:

If hazardous product is to be delivered under this contract, Contractor certifies that each item of product containing hazardous materials is covered by the appropriate material safety data sheet (MSDS) as applicable and accepts the product being delivered. Under no conditions shall any product containing asbestos be delivered unless prior written approval is issued by the SCR. All packages containing hazardous materials shall have an MSDS packaged within each container, an MSDS attached to the outside of each package, and each MSDS will reference a contract number.

(b) Contractor Vehicles:

Contractor certifies that all Contractor vehicles delivering (or removing) products and/or materials under the contract are qualified to safely transport the items, and accepts full responsibility for adherence to all applicable laws and regulations.
