

CENTER *for* COLLABORATION *and* COMMERCIALIZATION

C3 will be an inspiring and energizing place that will serve as a public face for Sandia National Laboratories, providing access to the Labs, and building linkages with the community. It will be a place where Sandians and their industrial, academic, and government partners can interact easily and freely, outside the gates.

Located in the Sandia Science & Technology Park (SS&TP), the new multi-tenant facility will be dedicated to increasing Sandia's collaboration and commercialization activities.

C3 will offer spaces for lease along with programs and services for tenants and partners, all designed to facilitate successful partnerships.

SPACES

- Sandia Offices
- Partner Offices
- Technology Showroom
- Incubator Space
- Co-working Space
- 400+ Person Conference Facility
- Small Conference Rooms
- Café/Catering Kitchen

PROGRAMS & SERVICES

- Entrepreneur Exploration
- Small Business Assistance
- Interactive Intellectual Property Library
- Tech Maturation
- Investor Access
- Scientific and Technical Consulting
- Technology Showcase
- Retiree Mentors

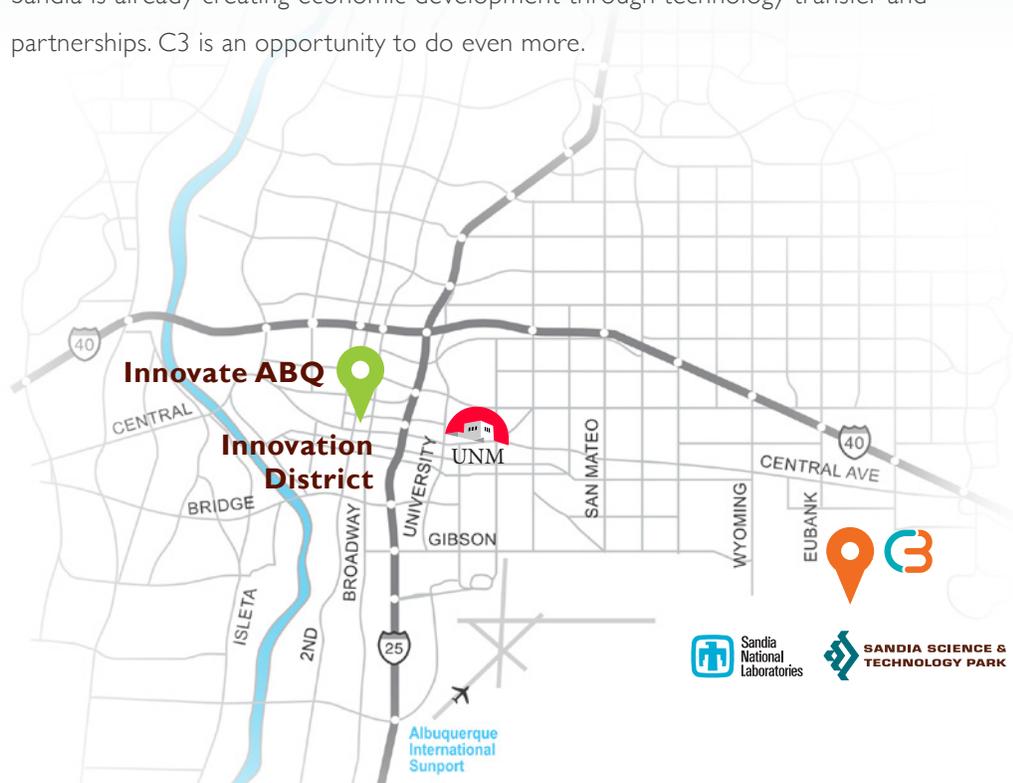

ALIGNMENT WITH CITY & UNM

The planned Center for Collaboration and Commercialization (C3) facility in the SS&TP ties into the City of Albuquerque's and the University of New Mexico's Innovation District and Innovate ABQ initiatives. At the eastern end of an innovation corridor that extends along Central Avenue from downtown east to Eubank Boulevard, the SS&TP is already home to companies and organizations that take advantage of the Park's location to give them easy access to the Labs' technologies, facilities, scientists, and engineers.

C3 will be designed to stimulate innovation, cultivate entrepreneurs, and generate jobs. With the city, university, and Sandia working together, C3 will be a fundamental differentiator for Albuquerque, helping to promote economic growth for the region. Sandia is already creating economic development through technology transfer and partnerships. C3 is an opportunity to do even more.

SANDIA SCIENCE & TECHNOLOGY PARK

To learn more about how you can become a part of C3, please contact:
