Letter of Authorization  
20 March 2012

### **APNIC and Sandia Joint Research Activity using 2400::/12**

To whom it may concern,

APNIC and Sandia are cooperating in a project to investigate the properties of unwanted traffic that is being sent to destinations in the IPv6 address block 2400::/12. Accordingly, APNIC authorizes Sandia to periodically advertise a route for 2400::/12 until further notice, and requests that Sandia's peers and upstreams accept this as a legitimate routing advertisement originating from AS3562.

A handwritten signature in blue ink, appearing to be "G. Huston", with a long horizontal stroke extending to the right.

Geoff Huston  
Chief Scientist, APNIC
