Dr. Stephen Younger
Laboratories Director

“Diverse suppliers are integral to Sandia’s success. We are committed to partnering and building relationships with highly qualified small businesses to fulfill our missions and spur economic growth in New Mexico and across the country.”

Sandia’s primary mission is ensuring the U.S. nuclear arsenal is safe, secure, and reliable, and can fully support our nation’s deterrence policy.

We protect the United States from threats at home and abroad by developing the technical expertise to monitor and assess emerging dangers, guard materials and critical assets, and respond to crises.
Sandia provides systems, science, and technology to meet national security objectives in such areas as cybersecurity, science and technology products, and integrated military systems.

We support the resilience and security of the nation's energy system, protect digital and physical critical infrastructure, and reduce U.S. vulnerability to chemical, biological, radiological, and nuclear terrorism.

Sandia provides the science needed to enable the U.S. nuclear stockpile, and does fundamental scientific, biomedical, and environmental research to enhance national security, economic competitiveness, and improved quality of life.
2018 Economic Impact

Jolyn A. Maheras
Director, Integrated Supply Chain Management

“The strength of Sandia’s supply chain is built on a diverse and qualified supplier community. We are fully committed to nurturing small business partnerships to achieve our national security mission and further economic prosperity.”

Subcontract-Related Payments

This represents dollars paid to purchase goods and services. More than 460 new small businesses supported Sandia’s mission in fiscal year 2018. Small businesses represent 65 percent of all Sandia suppliers.

Gross Receipts Taxes

Sandia paid $95,109,000 to the State of New Mexico in gross receipts tax.

*non-minority, non-woman, non-HUBZone, non-veteran owned

**Paul R. Sedillo**
Manager, Supply Chain Risk Management and Supplier Diversity

“Sandia National Laboratories has a mission to seek, grow, and partner with the small business community. Together we can meet the complex and important work asked of us by our great country. In keeping with our vision to be the nation’s premier science and engineering laboratory for national security and technology, we pursue the best and brightest and ensure that together we will respond when tasked. Our economy is stronger when small businesses are thriving. Sandia needs to lead the way in ensuring we are doing our part for the small business community.”

**Supplier Diversity Team**

---

We value customer-focused companies that are financially healthy, innovative, and responsive. Our suppliers share Sandia’s commitment to success in our national security mission.
