Christopher Siefert
Curriculum Vitæ

Sandia National Laboratories
P.O. Box 5800, MS 1323
Albuquerque, NM 87185-1323
(505) 844-4696   U.S. Citizen
http://www.cs.sandia.gov/~csiefer   csiefer@sandia.gov

Research Interests

Numerical Linear Algebra, Preconditioners, Algebraic Multigrid, Scalable Computing and Computational Electromagnetics.

Education

2000–2006	University of Illinois at Urbana-Champaign Ph.D. in Computer Science with Computational Science and Engineering Option (GPA 3.93/4.0). Advisor: Eric de Sturler.
1996–2000	College of William and Mary B.S. in Computer Science and Mathematics, May 2000. Highest Honors in Computer Science (GPA 3.95/4.0).

Employment

2015–present	Principal Member of the Technical Staff, Computational Multiphysics Group, Sandia National Laboratories.
2008–2015	Senior Member of the Technical Staff, Computational Multiphysics Group, Sandia National Laboratories.
2006–2008	Limited Term Technical Staff, Scalable Algorithms Group, Sandia National Laboratories.
2005–2006	Research Assistant, Department of Computer Science (UIUC).
2003–2005	Research Assistant, Center for Simulation of Advanced Rockets (UIUC).
2000–2003	National Science Foundation Graduate Fellow, Department of Computer Science (UIUC).
Summer 2001	Summer Research Intern, Computational Sciences and Mathematical Research (Sandia Livermore National Laboratory).
Summer 2000	Summer Research Student, Department of Computer Science (College of William and Mary) and Computational Sciences and Mathematical Research (Sandia Livermore National Laboratory).

Awards and Honors

2000–2003	National Science Foundation Fellow.
2000	Winner of the Lord Botetourt Medal (One issued each year).

Refereed Publications and Proceedings

Technical Presentations

[37] "Verification for Magnetic Materials in MHD" — Poster at 8th International Conference on Numerical Methods for Multi-Material Fluid Flow (MultiMat), September 2017.

[38] "Towards a More Algebraic hp-Multigrid" – Talk at 18th Copper Mountain Conference On Multigrid Methods, March 2017.

[39] "Computation of Derived Variables for the Eddy Current Maxwell's Equations" – Talk at SIAM CSE 2017, February 2017.

[40] "Won't you be my neighbor? A look at neighbor discovery for algebraic multigrid" – Talk at the 14th Copper Mountain Conference on Iteraitve Methods, March 2016.

[41] "Implicit Solvers for Higher-Order Discretizations" – Talk at 7th International Conference on Numerical Methods for Multi-Material Fluid Flow (MultiMat), September 2015.

[42] "Linear solver strategy for coupled and implicit discontinuous Galerkin method to model miscible displacement with adverse mobility ratio" – Talk at USNCCM 13, July 2015.

[43] "Extended and Conformal Decomposition Finite Elements for 3D Compatible Discretizations" – Talk at SIAM CSE, March 2015.

[44] "Local Smoothers for CDFEM with Sub-element Discontinuities" – Talk at the SIAM Annual Meeting, July 2014.

[45] "Local Smoothers for CDFEM with Sub-element Discontinuities" – Talk at the 13th Copper Mountain Conference on Iterative Methods, March, 2014.

[46] "Extended Finite Elements for Multi-material Electromagnetics " — Poster at MultiMat 2013, September 2013.

[47] "Algebraically-Constrained Tied Heaviside Methods for Computational Electromagnetics" — Talk at 12th U.S. National Congress on Computational Mechanics, July 2013.

[48] "Electromagnetic XFEM with Weak Discontinuities" — Talk at SIAM Annual Meeting 2013, July 2013.

[49] "Multilevel Preconditioners for the XFEM with Weak Discontinuities" – Talk at the 16th Copper Mountain Conference on Multigrid Methods, March 2013.

[50] "Electrogramnetic eXtended Finite Elements for Accurate Resolution of Multi-material Cells" — Talk at ARL Research in Ballistics Protection Workshop, May 2012.

[51] "Mimetic Least Squares Methods with Preconditioners for Darcy Flow" — Talk at the 12th Copper Mountain Conference on Iterative Methods, March 2012.

[52] "Smoothed-Aggregation Algebraic Multigrid for Porous Media Simulations" — Talk at SIAM Parallel Processing, 2012, February 2012.

[53] "Block Preconditioning for Implicit Ocean Systems" — Talk at 7th International Congress on Industrial and Applied Mathematics (ICIAM), July 2011.

[54] "Block Preconditioning for Implicit Ocean Models" — Talk at the 11th Copper Mountain Conference on Iterative Methods, April 2010.

[55] "Multigrid Scalability for Least Squares Finite Element Problems" — Poster at SIAM Parallel Processing 2010, February 2010.

[56] "Smoothed Aggregation AMG Solvers for Least-Squares Finite Element Systems" — Talk at SIAM Applied Linear Algebra 2009, October 2009.

[57] "An Algebraic Multigrid Method for Compatible Least-Squares Formulations of Div-Curl Equations" — Talk at the 14th Copper Mountain Conference on Multigrid Methods, April 2009.

[58] "Partitioning for Multigrid Solvers" — Invited Talk at the Workshop on Combinatorial Scientific Computing and Petascale Simulations (CSCAPES) 2008.

[59] "Recent Algorithmic (and Practical) Developments in ML" — Talk at the 10th Copper Mountain Conference on Iterative Methods, April 2008.

[60] "Introduction to Multilevel Solvers for the Physical Sciences" — Invited CSUMS Lecture, College of William and Mary, December 2007.

[61] "Algebraic Multigrid and a Compatible Gauge Reformulation of Maxwell's Equations" — Invited Computer Science Seminar, College of William and Mary, November 2007.

[62] "What's New in ML? New Features in Trilinos 8.0" — Trilinos Users Group Meeting 2007, November 2007.

[63] "Algebraic Multigrid and Algebraic Reformulations of the Eddy Current Equations, Part II" — Talk at the 13th Copper Mountain Conference on Multigrid Methods, March 2007.

[64] "Algebraic Multigrid and Algebraic Reformulations of the Eddy Current Equations" — Invited Talk for CSE 2007, February 2007.

[65] "What's New in ML? New Features in Trilinos 7.0" — Trilinos Users Group Meeting 2006, November 2006.

[66] "AMG and a Discrete Reformulation for Maxwell's Equations" — Computer Science Research Institute Seminar at Sandia National Laboratory, October 2006.

[67] "Probing Methods for Generalized Saddle-Point Problems" — Contributed Talk for Preconditioning 2005, May 2005.

[68] "Generalized Saddle-Point Preconditioners and Approximate Schur Complements" — Invited Talk for CSE 2005, February 2005.

[69] "Preconditioners for Generalized Saddle-Point Problems" — Talk for Midwest Numerical Analysis Day, April 2004.

[70] "Preconditioners for Generalized, Stabilized Saddle-Point Problems" — Contributed Talk for Preconditioning 2003 Conference, October 2003.

[71] "Model-Assisted Pattern Search Methods for Optimizing Expensive Computer Simulations" — Topic Contributed/Invited Talk at Joint Statistics Meeting, August 2002.

[72] "MAPS: An algorithm for non-parametric Response Surface Methodology" — Poster Session at the 2000 SRCOS/ASA Conference.

[73] "Model-Assisted Pattern Search" — Talk at Sandia National Laboratory, August 2000.

[74] "Model-Assisted Pattern Search" — Invited Talk for the Board of Visitors of the College of William and Mary, Spring 2000.
