

We are

SAFEGUARDS & SECURITY

*protecting Sandia's people,
facilities and information*

MORE THAN A JOB

Working with Sandia's security program is more than a job. It's striving every day to solve **complex problems** with **global impact**. It's a commitment to something bigger than yourself—providing *'exceptional service in the national interest.'*

- Monitoring and mitigating international security risks
- Protecting Sandia's nuclear material
- Partnering with weapon project teams to ensure secure operations
- Providing security training based on data analysis and trends

- Protecting members of the workforce and national resources from violent actors
- Maintaining physical and technical systems in high security spaces
- Anticipating and responding to global threats

- Protecting sensitive and classified national security information from espionage
- Conducting inquiries into potential security breaches
- Enabling security access through clearance processing

WHO WE ARE

Our Security professionals have backgrounds in:

- Criminal Justice
- Military
- National and Global Security
- Business and Project Management
- Communications and Marketing
- Data Analytics
- Organizational and Instructional Learning
- Mechanical and Nuclear Engineering
- Policy and Technical Writing

Are you:

- Goal-oriented and a team player?
- An effective communicator?
- An agile learner and critical thinker?
- Energized by being challenged?
- Able to lead and influence others?
- Passionate about national security?
- Ready for a career journey that's more than just a job?

WE NEED **YOU**

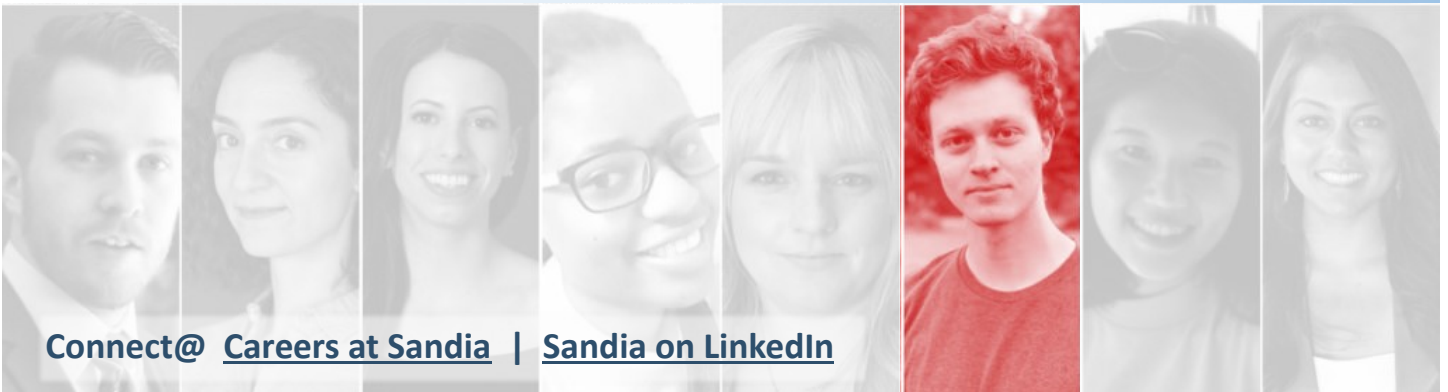

Security+
Think.
Assess.
Protect. | **YOU**
