

President Harry S. Truman Fellowship in National Security Science and Engineering

Seeking Applicants!

Sandia National Laboratories is seeking applicants for the President Harry S. Truman Postdoctoral Fellowship in National Security Science and Engineering. The Truman Fellowship is one of Sandia's most prestigious postdoctoral fellowships. The Fellowship provides the opportunity for new Ph.D. scientists and engineers to pursue independent research of their own choosing that supports Sandia's national security mission.

The fellow is expected to foster creativity and to stimulate explorations at the forefront of science and technology and high-risk, potentially high-value research and development.

Sandia's research focus areas are: biological sciences, earth, energy and environmental science; engineering sciences; materials and advanced manufacturing; math, computing and information science, nanodevices and microsystems, physical sciences; and radiation effects and high energy density sciences. To learn more about additional R&D programs that support Sandia's mission areas, please visit: **sandia.gov/missions**

The fellowship includes full salary for three years, as well as generous travel and research budget. The salary is \$116,800 in New Mexico and \$128,500 in California.

Deadline: September 12, 2023, 5PM, Mountain Daylight Time

Requirements:

We invite applications from talented researchers who have:

- PhD conferred within the past three years at the time of application or completion of PhD requirements by commencement of appointment
- Development and submission of a compelling research proposal in areas meaningful to national security
- Ability to obtain and maintain a DOE security clearance, which requires US citizenship

For more information, visit: https://tinyurl.com/TrumanFellowship

All qualified applicants will receive consideration for employment without regard to race, color, religion, sex, sexual orientation, gender identity, national origin, age, disability, or veteran status and any other protected class under state or federal law. 06/2023

Sandia National Laboratories is a multimission laboratory managed and operated by National Technology and Engineering Solutions of Sandia, LLC., a wholly owned subsidiary of Honeywell International, Inc., for the U.S. Department of Energy's National Nuclear Security Administration under contract DE-NA-0003525. SAND2018-8668HR

VISION

On behalf of our nation, we anticipate and solve the most challenging problems that threaten security in the 21st century.

MISSION

The synergy and interdependence between our nuclear deterrence mission and broader national security missions forge a robust capability base and empower us to solve complex national security problems.

VALUES

Sandia's five core values inform our daily decisions, shape our performance, and enable us to achieve success as one lab.

- We serve the nation
- We respect each other
- We act with integrity
- We deliver with excellence
- We team for great results
