

2025 Peer Reviewer Evaluation Form – Demonstration Projects

Evaluate the DOE/OE Energy Storage Program by answering the questions below. Each question should receive one score from the Scoring Scale. Half points are acceptable.

9-10 Excellent
7-8 Very Good
5-6 Good
3-4 Fair
0-2 Not Adequate

1. Is the project/codes and standards work well-aligned with the DOE Energy Storage program mission?

DOE OE's Core Mission: OE drives electric grid modernization and resiliency in the energy infrastructure. OE leads the Department of Energy's efforts to ensure a resilient, reliable, and flexible electricity system. OE accomplishes this mission through research, partnerships, facilitation, modeling and analytics, and emergency preparedness.

2. Did the project/codes and standards work leverage appropriate partnerships and collaboration to ensure project success?
3. Did the project/codes and standards work appropriately reference previous work in the area and incorporate lessons learned from past efforts?
4. Assess the level of impact the project/codes and standards work will have on the overall energy storage community.
5. Was the content and style of the poster appropriate for the peer review audience?
6. Additional comments or suggestions
