

SAVE THE DATES:

Energy Storage Webinar Series

Hosts: The Iowa State University Electric Power Research Center (ISU EPRC) and the Organization of MISO States (OMS), in collaboration with the DOE Office of Electricity Energy Storage Program and Sandia National Labs.

Presenters: Experts from the U.S. Department of Energy's Office of Electricity Energy Storage Program, OMS, the Iowa Economic Development Authority, Sandia National Labs, Pacific Northwest National Lab, Mustang Prairie Energy, Quanta Technology, and ISU EPRC.

Summary: This free, six-webinar series will provide an exploration of pathways for integrating energy storage into the MISO footprint, and provide a forum for discussion of the roles energy storage can play to improve reliability, resilience and sustainability, as MISO states respond to the challenge of integrating a diverse array of energy resources into the power grid.

Dates: Please plan to join us *every other* Friday starting July 31, and continuing August 14, August 28, September 11, September 25 and October 9, from 10 am to 12 noon central time. *A special, closed session for OMS-specific Q&A, restricted to OMS members, will be held October 23.*

Signing up and Webinar logistics: To receive the calendar invitation and weblink for each webinar, and/or to request more information, please contact

Kelly Johnson (OMS), kelly@misostates.org, (515) 243-0742 or

Anne Kimber (ISU), akimber@iastate.edu, (515) 294-7678.

Participants will receive a calendar invitation for all six webinars. The week prior to the webinar, participants will receive a calendar update with the specific webinar link, and a confirmation email with the same link, as well as a detailed agenda and speaker information.

Professional Development: ISU's EPRC will provide PDH certificates upon request.

SUMMARY AGENDA

Iowa State University Electric Power Research Center/MISO States Energy Storage
Workshop Series

Every other Friday, 10 am to noon (Central)

Webinars **July 31, Aug. 14, Aug. 28, Sept. 11, Sept. 25, Oct. 9** – 2020

Special closed session for regulators and all presenters for Q&A, **Oct. 23**

Energy storage is the key to unleashing many benefits to the grid including greater grid reliability and resilience. Join us to explore pathways for increasing energy storage in the MISO footprint.

Friday July 31, 2020, 10:00 am to 12:30 pm

Intro to Energy Storage

- Energy Storage Systems Overview
- Energy Storage Policy Overview

Friday Aug. 14, 2020, 10:00 am to 12:00 pm

- Energy Storage Applications and Value Stacking
- Using Analytics to Improve the Value Proposition for Energy Storage

Aug. 28, 2020, 10:00 am to 12:00 pm

Energy Storage Projects Case Studies Panel

Sept. 11, 2020, 10:00 am to 12:00 pm

Energy Storage Project Development and Finance Panel

Sept. 25, 2020, 10:00 am to 12:00 pm

Energy Storage Policy and Regulatory Special Topics Panel

Oct. 9, 2020, 10:00 am to 12:00 pm

Energy Storage research advances from ISU's power research program

Oct. 23, 2020, 10:00 am to 12:00 pm

Closed Session for Regulators and all presenters for Q&A and discussion
