

## **README for Navigating Sandia's ARC Data**

- ARC Data of 16Ah LMO/Graphite cells at different states of charge (SOC).
- Name scheme = cathode\_anode\_state of charge\_test#\_file type
- For the complete time course of the ARC experiment, including the 'heat-wait-seek' data, refer to the DAT file type. For the exothermic mode refer to the EXO file type.
- The metadata file includes details about the tests/cells.
