

2009 NNSA LDRD Symposium Survey

How Useful was this LDRD Symposium to your program/office?						Will your program/office use the NNSA LDRD technical advances reported in this symposium? If so, how?
	very much	somewhat	neutral	not much	not at all	
Organization:						
Office of the Dep. Asst. to the Secretary of Defense (Nuclear matters)						Yes, in order to operate effectively, DoD must be informed (esp. nuclear matters) of the significant advances in R&D at DOE installations.
Nuclear Counterterrorism/NA-47		X				I hope to follow-up on a specific data analysis project. It is of interest, but may be of even greater use to the IC.
DTRA	X					DTRA is a potential user. As a combat support agency, we are motivated to develop and expedite technology transition to the warfighter. We seek collaboration with partners to minimize duplication and maximize capability and transition potential. Suggest a cd with presentation material be given to attendees. Also, an attendance list would facilitate networking.
NNSA/NA-22	X					We already do a great deal. I was introduced to many new ideas and people. I think that one or two decent size ideas may come out of this meeting (I hope).
Stockpile Research, Development & Engineering Div., Defense Program		X				High-risk, long-term technology solutions applicable to future stockpile.
DHS/S&T Explosives Division		X				Not directly. Good understanding of lab capabilities for S&T climate issues of interest to nation.
Russian Embassy, Science Section	X					
RSLA/NTS/WTSG/&TRA	X					Yes, in homeland security.
DHS S&T Dir. Of Research	X					
DHS - Support	X					

2009 NNSA LDRD Symposium Survey

How Useful was this LDRD Symposium to your program/office?						Will your program/office use the NNSA LDRD technical advances reported in this symposium? If so, how?
	very much	somewhat	neutral	not much	not at all	
NNSA TriLabs						
		X				We will review the report and share with our colleagues. The ability to share our efforts with other organizations is the largest utility of this symposium
	X					NTS Connections. Help prepare for DoD contacts
		X				It is important to hear about all the progress made throughout the portfolio. I will share this with colleagues.
NNSA SDRD/PDRD						
	X					I have spoken with Chris Apblett regarding his conformal Li-Ion batteries and plan to collaborate with him on a FY10 PDRD project which would benefit from the technology.
	X					Yes, gauging program effectiveness and relevancy.
	X					Yes, MPCD (reported by Ping Lee) already in broad use by NA-42 emergency response assets, for communication of emergency response data.
