

Tony Uttley

President, Advanced Connected Sustainability Technologies, Honeywell International, Inc.

Board of Managers, National Technology and Engineering Solutions of Sandia, LLC

Tony Uttley is the President of Honeywell's Advanced Connected Sustainability Technologies (ACST) business. In this role, he is responsible for the strategy and business execution of Honeywell's unique technical capabilities in this field.

Previously, Uttley was Vice President & General Manager of the America's Residential business within Environmental & Energy Solutions in Honeywell's former Automation & Control Solutions (ACS) Division, driving aggressive growth based on a connectivity and internet of things (IoT) strategy. Prior to that, he was Vice President of Global Strategy & Marketing for Honeywell's \$18B ACS division.

Uttley has extensive experience in strategy, commercial and technical excellence. Prior to Honeywell, he was a Principal at the Boston Consulting Group (BCG), where he developed and executed business acceleration and go-to-market strategies for sophisticated engineered products companies within the Industrial Goods, MedTech, and Consumer Durables industries. For the 10 years prior to his role at BCG, he held a number of management and engineering positions with NASA at the Johnson Space Center in Houston, Texas.

Uttley holds a Master of Business Administration degree from the Kellogg School of Management at Northwestern University, a master's degree in management of technology from the University of Houston system, and a Bachelor of Science degree in mechanical engineering from the University of Minnesota.
