Budget

Sandia received $3.6 billion in revenue in FY18, Oct. 1, 2017, through Sept. 30, 2018. Most of that came through U.S. Department of Energy funding, including $2.2 billion under the DOE’s National Nuclear Security Administration. Weapons activities accounted for about $1.9 billion of the NNSA portion, defense nuclear nonproliferation received $238 million and other NNSA programs received $471 thousand. The DOE budget also included funding from the following program offices: $87 million from the Office of Energy Efficiency and Renewable Energy, $66 million from the Office of Science, $34 million from the Office of Nuclear Energy, $28 million from the Office of Electricity Delivery and Energy Reliability, $22 million from the Office of Energy and Threat, $17 million from the Office of Environmental Management, $9 million from the Office of Fossil Energy Conservation and $2 million for other DOE programs. Sandia also received $1.2 billion in non-DOE funding under Strategic Partnership Projects.

FY18 total revenue by Program Portfolio $3.6B

- Nuclear Deterrence, 59.3%
- Global Security, 16.7%
- National Security Programs, 14.4%
- Energy and Homeland Security, 7.3%
- Advanced Science & Technology, 2.3%
Employees
In FY18, Sandia had a workforce of 12,920, including 11,500 regular employees, 230 limited-term employees, 830 students, 210 post-docs, and 30 faculty/recurrent staff. Seventeen percent of Sandia’s technical staff work in electrical engineering, 18 percent work in mechanical engineering, and 28 percent are in other engineering fields. Some 18 percent of the technical staff work in computing, 6 percent work in cybersecurity, 4 percent work in physics, 1 percent are in chemistry, and 9 percent are in math and other science. Note: The figures do not add up to 100 percent, due to rounding.

Sandia regular employees have earned 900 associate degrees, 2,276 bachelor’s degrees, 4,362 master’s degrees, 1,962 doctorates, and 1,971 other degrees as of the end of FY18.

Sandia sites
Sandia operates in Albuquerque, N.M.; Livermore, Calif.; Tonopah Test Range, Nev.; and Kauai Test Facility, and Maui, Hawaii; and has leased space at other locations, including a Washington, D.C., office. Details:
- Albuquerque — 684 buildings and 13,740 acres
- California — 69 buildings and 410 acres
- Tonopah — 78 buildings and 179,200 acres
- Kauai and Maui — 50 buildings and 133 acres
- Leased facilities, all locations — 16 buildings and 19 acres
