

# Sandia National Laboratories Critical Information List (CIL)

Sandia National Laboratories critical information applies to all sites.

The site (or organizational) OPSEC Coordinators can disseminate site-specific critical information. If the release of critical information can cause harm to Sandia National Laboratories' programs, activities, personnel, customers, or assets, then it must be protected from inadvertent and unauthorized disclosure, even if it is not on this or any other CIL. Sites and organizations (divisions, centers, departments, sub-contractors, and/or programs) should use this list as a baseline for developing and maintaining their own CIL.
