Jolyn A. Maheras
Director, Supply Chain Management

October 20, 2015

Dear Sandia Contractor:

As lawmakers navigate through federal government budget and financial issues – the debt ceiling and continuing resolution – Sandia reminds its suppliers that invoices for products and services should be submitted in a timely manner.

Prompt submission of invoices for products delivered and services rendered will help reduce potential impacts on our supplier community resulting from federal budget uncertainty.

Thank you for the support and services you provide Sandia National Laboratories.

Sincerely,

Jolyn A. Maheras
