Guidance to Small Businesses on How to do Business with the DOE

<http://energy.gov/diversity/working-us/small-businesses-101-doing-business-department-energy>

DOE Acquisition Forecast

<https://energy.gov/osdbu/acquisition-forecast>

The forecast of future prime contracting opportunities and subcontracting opportunities that is available via the Department's major site and facilities management contractors.

DOE Small Business Points of Contact

<https://www.energy.gov/osdbu/small-business-services/small-business-points-contact>

The DOE buyers of goods and services are located in DOE headquarters (Washington, DC and Germantown, Maryland) offices, field contracting offices, national laboratories and government owned facilities throughout the United States. The directories are provided to connect you with small business program managers and/or acquisition personnel located in DOE headquarters offices, field contracting offices, national laboratories and/or government owned facilities, in an effort to obtain information about small business contracting opportunities at their respective DOE locations.

Supply Chain Management Center (SCMC)

<https://thescmcgroup.com/>

To operate as a strategic sourcing enterprise through the facilitation of collaboration across the contractor sites, capitalizing on identified leverage opportunities.

Funding Opportunities

<http://energy.gov/eere/sunshot/financial-opportunities>

To accomplish the goals of the SunShot Initiative, the U.S. Department of Energy Solar Energy Technologies Office supports funding opportunities on photovoltaics, concentrating solar power, systems integration, technology to market, and soft costs projects. Following an open, competitive solicitation process, these funding opportunities encourage collaborative partnerships among industry, universities, national laboratories, federal, state, and local governments and non-government agencies and advocacy groups. Solicitations may include financial or technical assistance.
